

## 5 reasons why you should buy an extended warranty

When it comes right down to it, buying an HP Care Pack extended warranty is a personal decision, and depends on whether you think the extra protection is worth the price and what kind of risk is acceptable to you.\*

Here are some of the reasons we think extended warranty for your HP device is more than worthwhile:\*\*

### Advantages of extending your warranty

#### **It gives you peace of mind, and peace of mind is priceless.**

By investing in an HP Care Pack extended warranty now, you can save yourself from worry and stress later. Whatever comes up, there's no hassle – and no fee.

#### **No surprise costs.**

Out of warranty replacement and/or repairs of physical parts are expensive. For example, a failure of the logic board or the hard drive – some of the most expensive pieces of a laptop – while rare, can cost in some cases half of the price of your product.

#### **It protects you against the unexpected.**

You can hope that you'll never be in a situation where your HP product breaks and you need extra support. But in the unlikely event that it does, it's nice to know that if such a situation does arise, you're covered.

#### **It's easy.**

HP Care Pack extended warranty can be easily purchased online and there is no need to register your Care Pack – HP does it for you. You'll receive a confirmation email with the information necessary to have close at hand should you encounter a hardware issue.

#### **You can get your product back up and running with no hassle.**

If you have a problem with your product, just call HP's Customer Support Centre and quote your HP Care Pack registration information to the agent who will help troubleshoot your issue and if necessary arrange for a repair service, and return you with a fully functional unit. No additional costs – shipping included.
